

VOICE IN THE WILDERNESS

MARCH 2022

TEAMS:

There is room for a few more teams this summer at the ministry, in the months of June and July. If your church, family, or individuals would like to serve along side of us, we welcome you! Outreach, teaching and worship services are planned this summer for the families as well as the continued relief efforts. Please contact us if you're able.

SPRINGTIME!!

It's such a fun time with the children this spring. They are anxious for the summertime bible learning, (they call it).. teams and activities to begin at the Dream Center!

The ministry picks up the children from the communities, a few at a time, in the winter and spring months to play, run, have a meal, and learn how much Jesus loves them! Encouraging to see these little smiles when they come to the Dream Center! God bless you all!

Manderson school gym with the kiddos.

CONSTRUCTION PROJECTS: *with the cost of materials today....HOLY! we will be completing some of the projects that have already begun at the Dream Center. Help is needed for skilled laborers! The increase over the last few years has been astronomical for lumber and metal buildings. We had planned on our cafeteria to begin this summer. It's all in God's timing, as metal building cost are double! We will continue to fundraise, which will allow the ministry to lay the concrete foundation and raise the building! Help us by praying that the funding will be abundant as to cover the extra cost and move forward! His Kingdom is not of this world's kingdom! John 18:36*
If you are able to give for this vital project, we thank you!

Blackfeet Tribe and the little church

OUR STORY: Looking back, it doesn't seem like more than a few days ago....Our little church where we preached and led many Blackfeet to the knowledge of the salvation of Jesus Christ. Baptizing in the Name of our Lord and raising leaders. Yes, the wind on the Blackfeet Reservation in Montana, blew, and mightily! But the little church was packed every night, many standing outside in the 70 mile an hour winds in the mountains. Families staying until 3 am and worship lasting all night long. This was our life then as it is today, longsuffering, dying to oneself, (hard, very hard!) the hope, the cold, but so much joy. We developed a vital food bank on the Blackfeet reservation, did crusades on rodeo grounds in the mud. The people so hungry for Jesus they came up through the mud and laid flat on their faces in the mud to give their lives to Jesus. These days are ingrained into our memory. What Jesus did then He will do again. Willing laborers in the field are desperately needed. Times have changed, people have changed, but God never changes. He will live on generation after generation, calling upon those who will GO and who will listen to His Voice until the end of time. Be the one! For it is not I that lives but Jesus who lives in me.

WIND RIVER RESERVATION, WY

The ministry continued to provide food and resources through the month of March, to three reservations. God is so good!
