FELLOWSHIP AND DISCIPLING CENTER AT THE DREAM CENTER ON PINE RIDGE

CONSTRUCTION PROJECTS: *with the cost of materials today.... we will be completing some of the projects that have already begun at the Dream Center. Help is needed for skilled laborers! The increase over the last few years has been astronomical for lumber and metal buildings. We had planned on our cafeteria to begin this summer. It's all in God's timing, as metal building cost are double! We will continue to fundraise, which will allow the ministry to lay the concrete foundation and raise the building! Help us by praying that the funding will be abundant as to cover the extra cost and move forward! His Kingdom is not of this world's kingdom! John 18:36*
If you can give for this vital project, we thank you!

A work in progress on our fellowship center. **Help** is needed with framing, electrical, a few windows, plumbing, drywall, flooring ...everything!!! A stone fireplace is in the plan if anyone is experienced and willing to come and make it happen! Metal on the outside needs fixing due to high winds. If anyone skilled for this work would be interested in giving of your time, please contact us!

OUR STORY:

We told of Jesus and sang of His goodness, from reservation to reservation, on our flatbed trailer in the streets. Since 1995 we gave our lives to the one who died for ours. We are not good, we are not special, there is only One Who Is and His Name is Jesus. In 2005, one early morning on the Pine Ridge Reservation, weary and tired, after spending all night in a teepee at a wake with the deceased body, we journeyed back to our trailer. On the way we passed a large piece of land for sale, (odd, because it was on the reservation, and if it is tribal land only an Indian can purchase it, so it is never with a realtor). Little did we know that cold, sad morning, that one day it would be the ministries. It was deeded land owned by a Lakota man who had passed away a few years back and his wife was white from Oklahoma. She was selling the land and would not sell only a small portion, only the full 115 acres of pastureland. It was without water and electricity but was fenced and gated. Oh, would it be a miracle for the ministry to build a place of stability for its outreach. It was a dream. We had no money, and a few partners who mailed us canned food to eat from time to time. Our donations were about 500.00 a month and we had 200.00 in the bank. The lady wanted 100,000.00 for the land. How? How could we do this?
