CONSTRUCTION PROJECTS: *with the cost of materials today.... we will be completing some of the projects that have already begun at the Dream Center. Help is needed for skilled laborers! The increase over the last few years has been astronomical for lumber and metal buildings. We had planned on our cafeteria to begin this summer. It's all in God's timing, as metal building cost are double! We will continue to fundraise, which will allow the ministry to lay the concrete foundation and raise the building! Help us by praying that the funding will be abundant as to cover the extra cost and move forward! His Kingdom is not of this world's kingdom! John 18:36*
If you can give for this vital project, we thank you!

Our first little church on our property, built by a team from NY. Without a floor. And a spool for an altar. The wind would blow the dirt during worship, but we filled our little church, which is now our kitchen and outside eating area.

OUR STORY CONTINUES:

The lady who owned the property would not divide it, as we asked if we could purchase 5 acres for the ministry. She was firm on selling the whole 115 acres. We knew that we knew the Lord brought this land to us. We knew that because during the journey home that morning I felt led to pray over the reservation again and ask the Lord to help us have a place of stability for the ministry. I asked Gary to stop the truck and pull over so we can pray. Well, of course he was tired and weary, who wouldn't be, I guess, staying with the deceased in a teepee all night. I didn't let down and kept insisting that we stop and pray. He said, "we have already prayed and prayed Lori for a place, so no!". I asked again, he said no. Finally, he said, "fine". We got out at a little pull off and stretched our hands out and prayed for a blessing of land. The property that was for sale was the land we prayed over unaware of where we prayed. We were standing at the far end of the property in a pull off and had our hands stretched over the very piece of property that was for sale. So, we knew, that we knew. To this day Gary always says if he hadn't argued with me, we would have prayed in the wrong place. Gary says he took us to the right location to pray. Haha!

This was in September. We went to the lady and asked her if we could have until December to raise the down payment of \$20,000.00, she requested, to carry the rest for 5 years. She said yes, she would because of what we wanted to do.

So...we took our little trailer and took off to raise the funding to buy that land for the Glory of the Lord! To be continued.....
