

VOICE IN THE WILDERNESS

NOVEMBER 2022

DREAM CENTER!

Tayden, he is 10 years old, this boy always looked very quiet and sad. I tried talking to him many times and he wouldn't speak. Then one day, Lori said to the children "repeat after me..I am loved!", and he wouldn't say it. I looked at him and said Tayden you are loved, he shook his head no. Again, I looked at him and said, "yes, Tayden you are so loved." He had tears in his eyes. The next day he came smiling and ran over to me and it was the first time I saw him laughing, he talked so much, he shared with me his dreams and goals. I prayed over him, gave the gospel to him and taught him how to pray to Jesus.~Rimma

Community LOVE reach to the children

Learning how much Jesus loves them.

It showed me how well I am able to rely on God...Although I have grown tired at times and miss my family, everyday spent here was worth it. Every person I had the chance to interact with and love on is not a forgettable experience. I am grateful for the opportunity provided by Wings As Eagles Ministries and by God. ~Vicky

Excerpts from letters the ministry receives from volunteers and interns!

I learned that missions are not nearly as easy as some make it seem. Even when its tough and totally against my willpower, that without Gods help it wouldn't have been possible. It has truly been a invaluable lesson to me and an experience I will never forget. I hope to come back here another time!~Vlad

I had a chance to share the Gospel, we showed a skit and I talked to the kids a lot. We were able to do teens lessons and spoke about forgiveness...we talked a lot about Jesus and His love. We gave teen bibles and were explaining how to read it.~Victoria

A Crown for

me...afternoon a little girl walked into my office. She said "Ms. Lori, I made this crown just for you." Well, my heart was full of awe...knowing it was my crown of glory given to me by a little native girl. Thank you, Jesus, in times of hardship or despair He always knows how to lead me. ~~~~Lori

OUR STORY CONTINUES:

Electricity another miracle? We had to have lights! We saw that all of the electricity was across the road ..way up on the hill, a long ways from us. Oh boy, this was going to be expensive to little *missionaires* that are eating canned soup! We proceeded to head to Martin, SD where the Lacreek Electric was located that encompassed the reservation for electricity. We spoke to the receptionist and told her we were there to see about bringing power over to the land the ministry just purchased. She was a Christian! She said well... lets pray something can be worked out not to cost you all a fortune. Gary and I were strong in faith after the water was given to the ministry, we knew the Lord was in all of this. She called for the supervisor. He came out to meet us in the front office. He said we would have to apply. Poles would have to be placed down to the bottom of the hill then across the road. The cost would be \$8,900.00. The cost of a transformer and junction box was extra. Our *hearts sunk*..we told him all about what we had planned and he still wouldn't budge! Just a discount is all we were asking for. He kept shaking his head no, he couldn't help us. I looked over at the receptionist and she was praying....and looked over at us and winked and kept praying. The supervisor was walking back down the hall to his office. When...all the sudden he turned right around and with a strange look on his face, like had no idea what he was doing.... He said, ok, ok...we will do it for nothing, are you happy! ~~Lori

Teen field trip!

Dream Center Christmas!

We need your help! Due to the high costs of postage and well..everything this year!.. the ministry can get discounts and tax-exemptions on toy purchases. If you could help financially for gifts this year if you are unable to send, it would be a blessing to be able to give a gift to as many as possible! God Bless you! Thank you!
